

Technical Forest Services Pty Ltd

Contact: Clive Woolridge 0407 331 023

Technical Forest Services is capable of providing all your forest industry assessment, management, supervision and contracting needs. We boast a diverse range of staff from operational academic, economic and technical forestry backgrounds. With decades of experience and many satisfied customers we are a smart and safe choice for your forestry contracting needs. Currently based out of a central office in Launceston Tasmania, yet operating from numerous satellite locations. (Three support offices in Tasmania, North East, North West and South; previously in Northern NSW). We have a proven track record in functioning and adapting to remote and foreign situations and locations. Initially we functioned primarily performing quality control/audits, field assessments/inventory and specialist equipment hire/use. We have taken this practical expertise and built upon it to become not only renowned for those previous mentioned operations, but also industry leaders and highly regarded in the areas of personnel and crew management/supervision, communication, problem solving/conflict management and large scale project management.
