Internet

Tasmanian Primary Wood Processor Directory 2018 is available at http://pft.tas.gov.au/publications/market_information

Link to Location Map of Primary Wood Processors is available at <https://data.stategrowth.tas.gov.au/forestry/>

Disclaimer

This directory may be of assistance to you but PFT and its employees do not guarantee that it is without flaw of any kind or is wholly appropriate for your particular purpose and therefore disclaims all liability for any error, loss or other consequence which may arise from you relying on any information in this report.

If you would like to be included in, or removed from the directory, please advise our Camdale office at your earliest convenience on (03) 6477 7389 or email admin@pft.tas.gov.au. We would also appreciate hearing about any errors or missing information you might have spotted in the directory, or if you know of a processor closing down or opening its doors, so we can consider appropriate amendments.

Acknowledgement

The willing participation of so many of Tasmania's primary wood processors is gratefully acknowledged. Private Forests Tasmania regularly makes requests to our stakeholders for information or for participation in surveys and we are always appreciative that so many are prepared to give us some of their valuable time, an example being for the preparation of this Directory, to help.

Private Forests Tasmania is a Tasmanian statutory authority established under the *Private Forests Act (1994)*. It works to facilitate and expand the development of the private forest resource in Tasmania in a manner which is consistent with sound forest and land management practices. This includes advising and assisting private landowners in the management of native forests and the establishment and management of plantations on private land. It works closely with private landowners and major stakeholders to develop and deliver a wide range of services to ensure sustainable forest use.

Introduction

This Directory has been primarily developed to help private forest owners with logs for sale to identify potential buyers. As well as enabling the forest owner to more easily locate and contact primary wood processors, it also identifies the log types purchased by them.

There is also a mutual benefit: this Directory will also help the listed primary wood processors to source logs from the Tasmanian private forest estate.

Who is listed?

The Directory is a listing of 41 of the estimated 48 primary wood processing businesses, regardless of size, that Private Forests Tasmania (PFT) believed were operating within the State of Tasmania at the time of publication. Their inclusion in the Directory has only been with their consent. All the data was collected directly from them, including permission for PFT to list their business within this Directory. Not all processors either replied or agreed to be included in the Directory but PFT hopes that, over time, more will see the benefit of participating and that future editions of the Directory will list a greater proportion of the State's primary wood processors, regardless of size.

Who is a Primary Processor?

For the purposes of this Directory a primary wood processor has been defined as a business that either manufactures a product from previously unprocessed logs or exports unprocessed logs.

Chain of Custody Certification

Forest certification is a process used by business to demonstrate sustainable forest management (SFM) in their production forests. Certification is carried out by independent third parties who regularly audit the performance of a business's forest operations and management systems against a standard.

Chain of custody certification schemes then enable wood from certified forest areas to be tracked along the length of the value chain. It ultimately extends through to the manufactured and eco-labelled end-product being purchased by the consumer.

There are currently two performance-based certification schemes operating in Australia: the Responsible Wood and the Forest Stewardship Council (FSC) scheme.

PFT indicates those Processors/Companies that have recently provided PFT with evidence of their certification type and currency with a third party certification body. Other Processors/Companies may be certified but are yet to provide PFT with evidence of their accreditation.

Forest Management Companies / Wood Brokers

A Forest Manager manages your forests on your behalf, including planting, silviculture, harvesting and marketing of wood. Some managers do all roles while others do components.

A Wood Broker is an entity that sells your wood into the market.

A number of forest management companies and/or wood brokers operate in Tasmania and include:

AKS Forest Solutions Pty Ltd - Tony Stonjek, 0419 573 205, astonjek@bigpond.net.au

Highland Forest Products – Adrian Calder, 0419 872 466, adriancalder1@gmail.com

Pentarch Forestry Services Tas Pty Ltd – Nigel Gibson, 0417 112 707, n.gibson@pentarch.com.au

SFM Forest Products - (03) 6223 3536, info@sfmes.com.au

Tas Land and Forest Pty Ltd – Kent Lyon, (03) 6423 1282, kent.lyon@taslf.com.au

Midway Tasmania Pty Ltd – Clint Webb, 0438 094 224, cwebb@midwaylimited.com.au

Consulting Forest Practices Officers

Landowners may find that they need a Forest Practices Plan (FPP) for some forest operations. As well as forest management companies being able to prepare FPP's, they can also be prepared by consulting Forest Practices Officers (FPO's).

The Forest Practices Authority (FPA) provides a register of consulting FPO's authorised to certify FPP's.

Please visit the FPA website.

http://www.fpa.tas.gov.au/forest_practices_system/information_for_landowners

Click on the *Consulting FPO Register*.

Processor Scale

Small = under 15,000 tonne

Medium = 15,000 to 100,000 tonne

Large = Over 100,000 tonne
